Outline of the story so far... It was Kyoto in the near future, an era when human beings lived together with robots. Kurumi had been shutting herself in the closet after losing her lover, Hal, in an airplane accident. Kurumi's grandfather, Tokio, asked her to take care of Robot QOI. QOI, taking the body of Hal (as Robo Hal), heard of the past story of Kurumi and Hal from the people around her such as the old lady from the elderly home, and started to work to restore things to normal. Firstly, Hal started from cooking the meals. When Hal went out to the town for shopping, a guy named Ryu called out to him. Ryu seemed to know Hal in the past....

...DID YOU

QUARREL  
WITH HIM?

...I'VE NEVER
